

**Luncheon with Diane Foreman**  
**2009 New Zealand Ernst & Young Entrepreneur Of The Year**  
**Tuesday 24th August 2010**

We are delighted to host a lunch for Diane Foreman from Emerald Group and the 2009 New Zealand Ernst & Young Entrepreneur Of The Year. Diane has recently returned from competing at the World Entrepreneur Of The Year awards in Monte Carlo where she competed against other country winners for this prestigious title.

While Diane did not walk away with this title she enjoyed a unique experience in a world competition that spans 3 days, includes leading entrepreneurs from across the globe and of course has an independent judging panel comprising past winners and other high profile business leaders.

Diane will share this life changing experience with you as well as her business story over a lovely lunch - you will also have the opportunity to ask her questions about her business and what it takes to lead a New Zealand based business enjoying significant global growth.

Diane began her entrepreneurial career as an eight year old by selling eggs to neighbors. Diane was bitten by the business bug early and has controlled her own business since the age of 25. Under her holding company Emerald Group, she employs 4,110 people and has a global reach that spans 29 countries. Its three main businesses include Healthcare Holdings, Emerald Foods and Emergent Recruitment.

Healthcare Holdings has revolutionized health care in New Zealand. Through her hospitals and clinics Diane provides 45,000 operations and procedures annually and New Zealand's only access to private radiotherapy for cancer treatment, robotic surgery and PET scanning.

Of the 15 million litres of ice cream manufactured annually in New Zealand by Emerald Foods, 75 percent is exported to 4,000 supermarkets, 711 franchised New Zealand Natural outlets and 300 hotel chains. On average, every nine days New Zealand Natural opens an outlet somewhere around the globe. Internationally recognized brands and providers purchase Diane's ice cream. A dedicated in-house laboratory has led to innovations unseen in the ice cream world including world firsts: ice cream that looks like sushi, wheat and gluten-free and many more.

Emergent is a market leader in executive contracting, servicing many of New Zealand's leading businesses and ensuring Diane has access to top talent.

Dedicated to social responsibility Diane was the driving force behind the New Zealand government matching her dollar for dollar to create a facility that teaches deaf cochlear-implanted children how to speak and live in a hearing world. Her efforts have changed the lives of thousands of New Zealand children.
